

Trusted AI Committee

Overview

Below is an overview of the current discussion topics within the Trusted AI Committee. Further updates will follow as the committee work develops.

- Focus of the committee is on policies, guidelines, tooling and use cases by industry
- Survey and contact current open source Trusted AI related projects to join LF AI efforts
- Create a badging or certification process for open source projects that meet the Trusted AI policies/guidelines defined by LF AI
- Create a document that describes the basic concepts and definitions in relation to Trusted AI and also aims to standardize the vocabulary /terminology
