Technical Project Getting Started Checklist

Please track your progress on this page and please add links to your finished work.

Please copy and paste this checklist onto your project wiki to track your progress - Please include links to your finished work.

f you ar	e not far	niliar with Confluence/Wiki or need a refresher, visit the Confluence Overview.						
	Upon L	F AI TAC Project acceptance, a series of asset transfers will be set in motion. Standard transfer list includes: Trademark						
	~	Website Domain (if Project has an existing site)Angel Website						
		Social Media Handles (if any)						
		GitHub: Angel Repo						
~	Review	and Bookmark the LF AI Wiki Homepage Familiarize yourself with the key resources for the LF AI Foundation						
	Project	Wiki: Angel Home Expand upon the wiki created for the project - The wiki will be publicly available Example wiki pages include: Homepage, Introduction/Overview, TSC, Calendar, Documentation, Releases, Community Governance, etc.						
~	Project	Mail Lists Subscribe to the project specific mail lists via the LF AI Groups.io - Subscribe to any other mail lists your are interested in						
		The Project Lead(s) should be set as moderator for ongoing management of the project specific mail lists						
		 Project Leads must review and follow the processes outlined in the LF AI Foundation - Community Meetings and Calendars over view which includes information on meeting management, eligibility requirements for authorized meeting hosts, instructions, FAQ, etc. 						
	Project Meeting Calendars							
	≥ Inject	All project group meetings are also populated on the project wiki under the calendar page set up for each project under their wiki space after acceptance as an LF Al hosted project - Example						
	~	The Project Lead(s) should be set as moderator for ongoing management of the project meetings which are managed through Groups.io Project Leads must review and follow the processes outlined in the LF AI Foundation - Community Meetings and Calendars over view which includes information on meeting management, eligibility requirements for authorized meeting hosts, instructions, FAQ, etc.						
	~	Project Leads should work with LF Staff to provision Zoom meeting Host access for project meetings based on the instructions noted in the resource link above						
		Once meeting(s) have been scheduled in Zoom, those details should be added to the Groups.io mail list calendar which will also populate the wiki group calendar, full instructions at LF AI Foundation - Community Meetings and Calendars						
	~	Community members must Subscribe to all meeting invites for mail lists which they belong to at and wish to populate in their local calendars, full instructions at LF AI Foundation - Community Meetings and Calendars						
✓	Project	Slack Projects can establish Project channels on the LF Al Slack (examples: #project, #project-help, #project-tsc) - For questions on setting up						
	V	channels, email operations@lfai.foundation						
	~	A free Slack account was set up for the LF AI Foundation - This Slack account was set up with an inviter tool that allows automatic invites to anyone who would like to join versus an admin manually inviting each user (also bypasses the same company email domain restriction that login into slack normally requires) - Those interested in joining the LF AI Slack account can visit https://slack.lfai.foundation , where they can enter in their preferred email address and the invite to join the LF AI Foundation Slack will automatically be sent to their email for signing in or signing up - They should then join the channels they are interested in						
		Note: This is the Free Slack service, which does have limitations - The primary limitation is the message search only going back to the most recent 10K messages, thus, this tool should only be used for basic/informal communications that can be followed up with separate discussion via the applicable mail list or other tool/channel such as the LF AI wiki or GitHub						
	~	If the LF AI Slack account is used, the Projects should post this information on your wiki page (or other centralized information tool, such as GitHub) with any adjustments based on how your community chooses to utilize the communication channel						
		irs: It would be recommended to post this information on your Trusted AI Committee wiki page with any adjustments based on how your ses to utilize the communication channel.						
	GitHub	Recommended Practices for LF AI Projects Review and implement the GitHub Recommended Practices for LF AI Projects - Please reach out to LF staff with any questions						
	Project	Technical Charter						

				charter to determine the various actions required (common examples noted below) - The pr wiki home page	oject's charter will be		
				Mission and Scope of the Project			
			~	nsure the project's README file within the code repository in GitHub lists the project's miss	sion		
			~	nsure the project is using an OSI-approved open source license			
		roject requirement only					
			∠	ractice for Incubation projects) stablish the TSC voting members according to the project charter - TSC voting members may roject wiki - Example	nust be listed on the		
				Build out a community governance wiki page with the projects details - Example: Co	ommunity Governance		
				stablish a recurring (minimum monthly suggested) TSC meeting which should be open to the leconference, or in person - LF AI staff can help schedule the first meeting	ne public; electronically,		
				TSC meeting information should be included on the project's wiki - Example Comm	nunity Meetings		
				Build out a TSC calendar (utilizing Groups.io) on the project wiki which will later include committee meetings, events, etc Example Calendar	grow with the project to		
				Set a meeting process which must include: Example			
				 Meeting minutes (attendance, quorum check, key discussion items, action wiki and emailed to the project mail list 	s) posted to the project		
				 Meetings should be recorded and posted to the project wiki with the link in the project mail list 	cluded in the email sent to		
				entify the project roles (contributors, committers, etc.) according to the project charter and roject wiki - Example	document them on the		
/archiving of projects, (2) amend, adjust, refine an				stablish and document on the project wiki the work flow procedures for (1) the submission, rchiving of projects, (2) set requirements for the promotion of Contributors to Committer stamend, adjust, refine and/or eliminate the roles of Contributors, and Committers, and create ocument any TSC roles, as it sees fit - Example, Example	atus, as applicable, and (3)		
				lect a TSC Chairperson - Example			
				nsure all TSC members are familiarized with the roles and responsibilities listed in the proje	ect charter - The project's		
charter will be linked to the project wiki home p TSC Voting (Graduation project requirement only but			TSC Vo	narter will be linked to the project wiki home page g (Graduation project requirement only but best practice for Incubation projects) nderstand the voting requirements (eligibility, quorum, etc.) and procedures as noted in the	o project charter - Voting		
				etails should be noted on the project wiki - Example Technical Steering Committee(TSC)	project charter - voting		
		✓		e with Policies	P. A. L. A. L. W. C. M. C. A.		
			~	dopt a code conduct (subject to LF Al approval) or utilize the LF Projects Code of Conduct rg/policies/ - Document the Code of Conduct on the project wiki			
			~	nderstand and adhere to the Series Agreement for the Project and the Operating Agreeme os://lfprojects.org/policies/ and as noted in the project charter	nt of LF Projects listed at h		
			~	dhere to the processes required for any policy changes according to the project charter - A ocumented on the project wiki	ny changes must be		
			v	llow open participation from any individual or organization meeting the requirements for cor narter and any policies adopted for all participants by the TSC, regardless of competitive int ach out to LF AI staff			
			✓	perate in a transparent, open, collaborative, and ethical manner at all times - The output of oposals, timelines, decisions, and status should be made open and easily visible to all - For any concerns, reach out to LF AI staff	all project discussions,		
		~	Commu	/ Assets - Understand and adhere to the guidelines set in the project charter			
		✓	General	ules & Operations - Understand and adhere to the guidelines set in the project charter			
		✓	Intellect	Property Policy - Understand and adhere to the guidelines set in the project charter			
		~	Amendr	nts - Understand and adhere to the guidelines set in the project charter			
	TAC 95	onsor En	nagaman				
	TAC Sp	TAC Sponsor Engagement As an LF AI Technical Project benefit you have an LF AI Technical Advisory Council (TAC) sponsor assigned to help guide your project - We encourage you to connect with your TAC sponsor and leverage the wealth of knowledge that they can provide - Contact LF AI Staff if you do not know who your sponsor is					
	CII Best Practices Badge Program (Graduation project requirement only but best practice for Incubation projects)
