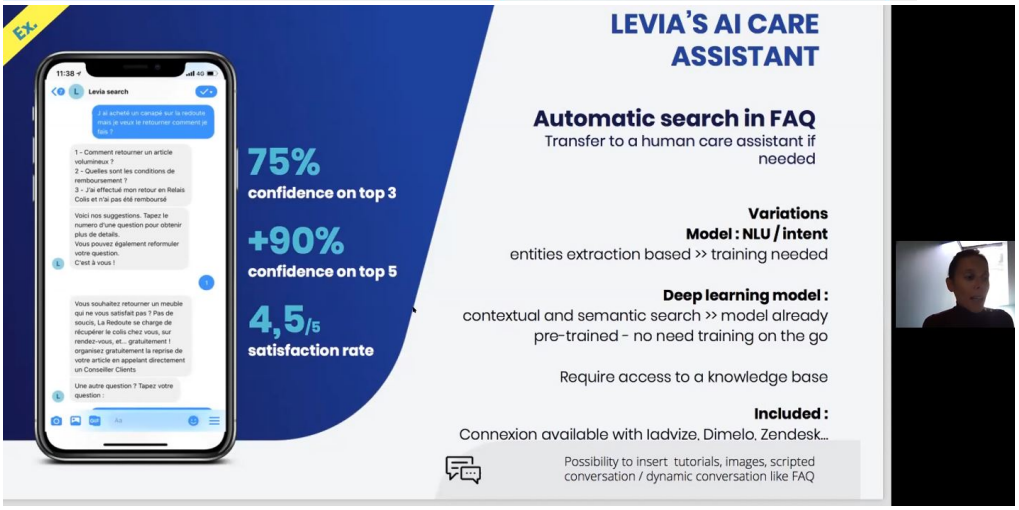
LF AI DAY
Virtual LF AI Day EU
Europe 2020
orange
June 22, 2020
13:00 – 17:00 – Central European Summer Time
via Zoom
#lfaiday



Ex.
LEVIA'S AI CARE ASSISTANT
75%
confidence on top 3
+90%
confidence on top 5
4,5/5
satisfaction rate
Automatic search in FAQ
Transfer to a human care assistant if needed
Variations
Model : NLU / intent
entities extraction based >> training needed
Deep learning model :
contextual and semantic search >> model already pre-trained - no need training on the go
Require access to a knowledge base
Included :
Connexion available with ladvize, Dimelo, Zendesk...
Possibility to insert tutorials, images, scripted conversation / dynamic conversation like FAQ

Artificial General Intelligence – Definition and capability targets

Artificial general intelligence (AGI) is the representation of generalized human cognitive abilities in software so that, faced with an unfamiliar task, the AI system could find a solution. An AGI system could perform any task that a human is capable of.
