Executive Summary

LF AI Trusted AI Principles:

- Identified 6 principles, which were abstracted from existing initiatives, and have been structured to be relevant for any open source projects
- Agreed that principles will focus "Beyond the algorithms" into the OSS governance process

Document with full details on each principle:
<https://docs.google.com/document/d/1t03G7JQc1KpzzX7KyZq0YHsg2yCZaTqV4QZqdVgHsjM/edit>

Next steps:

- Align with broader LF AI Trusted AI Committee with the proposed LF AI Trusted AI Principles
- Identify potential areas for application of LF AI Trusted AI Principles such as:
 - Case studies of alignment of existing projects with the Principles
 - Incubating / graduation project assessment with the Principles
- Create checklist that would allow parties to evaluate OSS projects with the LF AI Trusted AI Principles
